

TENDERCARE

Mature & Formal Hardy Plants

Plants for Borders

A selection of Ferns, Grasses and Herbaceous plants

A selection of mature, pot full 5,10 and 20L plants to give immediate impact in the border.

Plant centres of 300-400mm for groundcover, 500- 600mm for clump forming varieties in 5 and 10L and 1 -2 per square meter for 20L plants.

Ideal for show gardens, refurbishment projects, areas prone to vandalism and sites needing low maintenance aftercare.

All prices include V.A.T.

*****	*****	*****	0015L	*****	7	£35.00
*****	*****	*****	0020L	*****	10	£50.00
Athyrium filix-femina Frizelliae (D)				Necklace Fern		
<i>Deciduous fern. Unusual and dainty, lance-shaped, much divided, arching fronds are pale green. Requires shade and humus-rich, moist soil that is well drained. Height and spread to 30cm.</i>						
*****	*****	*****	0005L	*****	54	£14.00
Athyrium nip. pic. Red Beauty (D)				Japanese Painted Fern		
<i>Deciduous fern with wine-red central stalk and grey-green fronds merging to green at the edges. Prefers moist, shady and sheltered position. Height and spread to 50cm.</i>						
*****	*****	*****	0005L	*****	34	£14.00
Athyrium niponicum var. pictum (D)				Japanese Painted Fern		
<i>Deciduous fern with delicate and decorative creeping habit. The lance shaped fronds are silver grey-green, metallic and variable coloured. Prefers moist, neutral to acid soil in a shady, sheltered spot. Height and spread 40cm.</i>						
*****	*****	*****	0010L	*****	5	£24.00
*****	*****	*****	0020L	*****	23	£50.00
Athyrium otophorum var. okanum (D)				Japanese Lady Fern		
<i>Evergreen, clump forming fern with lance shaped, variable pinnate mid grey-green, fronds. Prefers moist, humus rich soil in a shady, sheltered position. Height and spread to 40cm.</i>						
*****	*****	*****	0010L	*****	8	£24.00
Blechnum spicant (E)				Deer Fern		
<i>An excellent, evergreen, ground cover fern with dark green pinnate fronds. Ideal for moist shady sites on humus rich acid soils. Height 30-75 cm. Spread 30 45 cm.</i>						
*****	*****	*****	0005L	*****	87	£14.00
*****	*****	*****	0010L	*****	9	£30.00
Cyrtomium fortunei (E)				Korean Holly Fern		
<i>Evergreen fern with fronds that are lance-shaped and have holly-like, glossy dark green leaflets, young fronds are often covered with whitish or brown scales. Requires partial shade and moist soil. Height and spread to 30-60cm.</i>						
*****	*****	*****	0010L	*****	6	£24.00

Plants for Borders

Height	Width	Girth	Pot	Form	Qty	Price
Cyrtomium fortunei clivicola (E)				Arching Japanese Holly Fern		
<i>Evergreen fern. Fronds are lance-shaped and have holly-like, dull green pinnae, young fronds are often covered with whitish or brown scales. Height 30-60cm. Spread 30- 45cm. Requires partial shade and moist soil.</i>						
*****	*****	*****	0005L	*****	67	£14.00
*****	*****	*****	0010L	*****	13	£30.00
Dryopteris affinis (S)				Golden Shield Fern		
<i>Virtually evergreen fern producing a shuttlecock of lance-shaped pinnate fronds. Young fronds are pale green as they unfurl and mature to dark green where most are held through winter in a sheltered, shady and moist position. Height and spread to 75cm.</i>						
*****	*****	*****	0010L	*****	6	£30.00
Dryopteris atrata (E)				Shaggy Shield Fern		
<i>Hardy, deciduous fern with lance-shaped, pinnate, arching, bright green fronds. In spring the emerging fronds resemble a giant shuttlecock! Requires partial shade and a moist, humus rich soil. Height and spread to 60cm.</i>						
*****	*****	*****	0005L	*****	4	£14.00
*****	*****	*****	0010L	*****	85	£24.00
Dryopteris championii (E)				Champion's wood fern		
<i>Dark Green foliage. New fronds that emerge in the Spring are often a brighter green colour. Upright, arching habit. Grows well in Part to Full Shade in rich, moist Soil. Height to 0.9m (Evergreen)</i>						
*****	*****	*****	0005L	*****	82	£14.00
Dryopteris cristata The King (E)				Crested Wood Fern		
<i>Majestic deciduous woodland fern that is sometimes called The King. It produces a shuttlecock of arching fronds. Grows well in semi shade and moist soil. Height to 0.5m Spread to 1 metre.</i>						
*****	*****	*****	0005L	*****	6	£14.00
Dryopteris cycadina (D)				Buckler Fern		
<i>Hardy, deciduous fern with lance-shaped, pinnate, arching, bright green fronds. In spring the emerging fronds resemble a giant shuttlecock! Requires partial shade and a moist, humus rich soil. Height and spread to 60cm.</i>						
*****	*****	*****	0005L	*****	179	£14.00
*****	*****	*****	0020L	*****	7	£50.00
Dryopteris dil.Crispa Whiteside (D)				Broad Buckler Fern		
<i>Usually deciduous fern with a shuttlecock of broadly triangular lance-shaped, pinnate light green fronds. Requires moist, humus rich soil in a shady and sheltered position. Height to 80cm spread to 50cm.</i>						
*****	*****	*****	0020L	*****	6	£50.00
Dryopteris dil.Lepidota Cristata (D)				Lacy Crested Broad Buckler Fern		
<i>Usually deciduous fern with a shuttlecock of broadly triangular lance-shaped, pinnate green fronds. Requires moist, humus rich soil in a shady and sheltered position. Height to 80cm spread to 50cm.</i>						
*****	*****	*****	0005L	*****	9	£14.00
*****	*****	*****	0020L	*****	47	£50.00
Dryopteris ery. Brilliance (E)				Copper shield fern		
<i>Broadly ovate, bi- or tripinnate Dark Green fronds, Bronze to Bronze-Pink when young in Spring, and bright Orange-Red spores on the undersides of the leaves. Grows well in Part to Full Shade in moist, well drained Soil. Height and Spread to 0.75m (Evergreen)</i>						
*****	*****	*****	0005L	*****	49	£14.00
*****	*****	*****	0010L	*****	8	£24.00

Ferns						
Dryopteris erythrosora (E)						Copper Shield Fern
<i>Semi-evergreen fern with triangular pinnate fronds which are copper red when young, slowly turning green with age. Excellent border fern. Prefers moist, humus rich soil, in shade or sun. Height and width to 60cm.</i>						
*****	*****	*****	0005L	*****	9	£14.00
*****	*****	*****	0010L	*****	36	£24.00
Dryopteris fil. Lin. Polydactyla (D)						Slender Crested Male
<i>A unusual deciduous fern with tall fronds that are narrow and deeply dissected, especially at the apex which give the impression of a tassel on the end of the frond. Requires partial shade and moist soil. Height and spread to 90cm.</i>						
*****	*****	*****	0005L	*****	31	£14.00
Dryopteris filix-mas (D)						Male Fern
<i>Deciduous or semi evergreen fern, with elegant arching fronds. Upright broadly lanced shaped mid green fronds arise from crowns of large, bronze scaled, rhizomes. Height and Spread to 1m. Requires shady position and moist, well drained, soil.</i>						
*****	*****	*****	0003L	*****	5	£9.00
Dryopteris filix-mas Barnesii (D)						Barnesii Male fern
<i>A vigorous, deciduous fern with narrow, erect fronds reaching 1.0m on established plants. Suitable for a sunny position if given sufficient moisture and humus-rich soil.</i>						
*****	*****	*****	0005L	*****	18	£14.00
Dryopteris filix-mas Crispa (E)						Crested Male Fern
<i>Male fern with crested, mid-green fronds which form the distinctive shuttlecock shape. Each leaflet on the frond is crested and crisped giving it its unique shape. Perfect for a partially shady, moist, humus-rich border sheltered from strong winds. Height to 60cm.</i>						
*****	*****	*****	0020L	*****	8	£50.00
Dryopteris wallichiana (D)						Wallichs Wood Fern
<i>A deciduous fern with erect rhizomes and lance-shaped pinnate, dark green fronds. The midribs of which are covered in dark brown scales. Height and spread to 1.5m. Prefers semi shade, and moist, well drained soil.</i>						
*****	*****	*****	0005L	*****	27	£14.00
Matteucia orientalis (D)						Oriental ostrich fern
<i>Spreading, widely ovate, pinnate, bright Green sterile fronds surrounding long, narrower, fertile fronds that emerge near Black and turn Reddish-Brown in Autumn. Grows well in Part Shade to Full Shade in moist, retentive Soil. Height and Spread to 0.6m (Deciduous)</i>						
*****	*****	*****	0010L	*****	47	£30.00
Matteucia struthiopteris (D)						Shuttlecock /Ostrich Fern
<i>Deciduous, ground cover fern that spreads to form a large colony. The new pale green fronds open to form the classic shuttlecock shape, hence its common name. Prefers a moist, but well drained, neutral to acid soil in shade. Height to 1m.</i>						
*****	*****	*****	0005L	*****	55	£14.00
Polystichum makinoi (S)						Makinoi's shield fern
<i>Rosette of arching, bipinnate, glossy, Olive-Green fronds, usually brown at the midrib, and divided into broadly linear, pointed pinnae with broadly oval segments. Grows well in Part Shade to Full Shade in moist Soil. Height and Spread to 0.6m (Semi-Evergreen)</i>						
*****	*****	*****	0005L	*****	179	£14.00
Polystichum munitum (E)						Giant Holly Fern
<i>Evergreen fern with erect, leathery, lance-shaped dark green fronds to 75cm. long, that consist of small spiny margined pinnae. Height and spread to 1m. Requires partial shade and moist, humus rich soil.</i>

We are closed between Christmas and New Year	

Your visit to Tendercare

We aim to make visiting our nursery a really enjoyable time for you. We have invested in golf buggies to assist when conditions are wet and our offices include a comfortable coffee shop..

An appointment is not necessary but may help you get the best from your visit, as it allows a horticultural adviser to prepare some suggestions before you arrive. Whether you have booked an appointment or not, always call in at reception upon arrival, to collect a map and price list.

When selecting specimen plants you may individually tag the plants you wish to order, or for larger quantities of smaller stock you may prefer to simply make a note of the code and entrust selection to one of our quality supervisors. All of Tendercare's plants have a unique batch code to ensure accurate tracking of plants from selection to delivery.

It is important to note that, due to the size of our plants, Tendercare operates on an order-and-delivery service or a pre-booked collection system only. Collection of larger material requiring machine handling is available Monday to Friday unless by special arrangement.

Supply Warranty

We check stock quality both at the tagging and picking stage but should you be unhappy with stock sent, please leave it on the lorry and a full refund will be provided. If the stock does get unloaded and you are unhappy with it, defects must be reported within 3 days of delivery and prior to planting. We guarantee that the stock supplied will be structurally sound, have a healthy root system, is in good health and true to type.

Planting and Warranty

We offer a complete planting service. We have particular expertise in the art of positioning the larger stock on site in line with your design intention. Our experience in the installation of larger stock includes domestic and commercial sites with difficult access, high level installations and associated irrigation systems. We offer on-going maintenance and establishment services and a choice of Planting and Extended Warranty covers. Your adviser will prepare a quotation for you.

Delivery Service

We offer nationwide delivery using our own transport and drivers. Our standard delivery service is within 2 weeks. Delivery may be free, dependant on order size and the distance. Details of charges are available from our Sales Team. All deliveries are accompanied by a delivery note.

Larger orders, which fill a lorry, will be delivered on the day of your choice. To keep the delivery charges reasonable, smaller orders are grouped with other orders. If a specific date is required an additional charge may be requested.

For grouped orders, we do our best to meet specific requirements but generally the drop order is indicated by the combination of orders and efficient routing of the lorry. An estimated time slot for delivery can be given on the day of delivery by calling the dispatch office on 01895 837126.

The purchaser needs to have a person available to check the delivery with our driver, sign and accept the delivery. Deliveries are made to the kerbside. Where the driver is requested to come off the public highway in order to get closer to the desired point of delivery, the customer will be asked to sign a disclaimer in favour of Tendercare. The driver's decision as to the feasibility of the request is final.

All plants up to a pot size of 50L will be offloaded by our driver using a tail lift and can be wheeled onto a flat surface on your property that's nearest to the road. Plants between 85L and 230L will be offloaded by the driver and an assistant. For pots sizes over 285L and above, specialist handling is required and a charge is made to provide this service. Your needs will be discussed at the time of order.

Order Collections

We ask for 24 hours notice for collections to allow us to prepare your order for you. If you wish to collect on the same day as ordering then you will be asked to tag the plants which you would like, place an order and we will then pick your order with the correct machinery for the size of stock selected. You will be directed to the appropriate loading area for the size of stock selected.

Order Cancellations

Once tagged, if an order is cancelled within 7 days by the buyer, we reserve the right to charge 10% of the order or value of goods being cancelled, to cover the time we need to de-tag the stock and cover costs expended to date. After 7 days, orders can only be cancelled by agreement with us and will incur a minimum cancellation charge of 30% of the order value.

Customer Service

If you have any concerns regarding establishment of your plants please contact us for advice as soon as you notice the problem. We aim to give an excellent service to our customers and should you have any reason for complaint please either discuss this with your adviser, who will aim to resolve the matter with you or you can refer the matter to Angela Halksworth Director angelah@tendercare.co.uk 01895 837138.

General Terms

This list cancels all previous lists.

Prices are exclusive of V.A.T. Our V.A.T. registration number is 442 5638 48

All items are offered subject to availability on receipt of the order.

All plants are believed to be true to name, but in the event of an error on our part, our liability shall not exceed the invoice price of the variety in question.

We hereby retain title to any goods sold until payment is received in full.

Except for those plants covered by our Planting and Extended Warranty, as we have no control over the plants supplied by us once they have left our hands, , we give no warranty, express or implied, after acceptance of delivery or collection.
